LED FILAMENT LAMPS

Original Design & Professional Manufacture

Company Profile

Unleashing Innovation in Lighting: Miray Tech

At the heart of Miray Tech was a story of relentless innovation and transformative ideas. In 2011, our founder Mr. Lei was inspired by a large COB light source at a Japanese exhibition. With visionary zeal, he envisioned and miniaturized it into the first glass LED filament bulb, revolutionizing the lighting industry. This pivotal innovation marked the transition from traditional tungsten bulbs to energy-efficient LED technology, benefiting households globally with greener, sustainable light sources.

Expanding Horizons

In 2016, Mr. Lei established Miray Tech with a commitment to excellence and a focus on global outreach. Anticipating advancements in AC filament technology, he spearheaded the development of state-of-the-art automated LED production lines, diversifying our product range to include various bulb types and festive light strings. Today, our production prowess extends to over 8 million light bulbs and 100,000 light string sets monthly, alongside an impressive output of plastic lamp holders and wishing lights. Miray’ s products, which hold over 100 domestic and international patents, meet stringent global standards such as UL, CE, ROHS, and energy efficiency certifications in Europe and America.

A Future Built on Quality and Sustainability

Guided by the principles of sustainability and innovation, Miray Tech is dedicated to becoming the premier core lighting supplier worldwide. Our operations are meticulously managed under international quality standards to enhance product quality and customer service. We invite you to join us in this luminous journey as we strive to illuminate the world with eco-friendly and high-quality lighting solutions.

Join Us

Leaders and enthusiasts from all industries are welcomed to explore and collaborate with us for a brighter, more sustainable future. Visit Miray Tech, where innovation lights up the world.

Let us use Miray’s power,Let the world night full of sunshine.

Best Wishes!

Dongguan Miray E-Tech Co.,Ltd

SMART LIGHTING

Design your art Illuminate your life

A60C-WIFI-8S-27KD

WATTAGE: 6.5W

LUMEN: 650LM

CCT: 2700K

VOLATGE: 220-240V

Wifi Control

Connect the bulb to your home Wi-Fi network and control it directly from anywhere using the app.

You can manage your lights with your smartphone or tablet, including adjusting color and brightness, setting schedules and scenes, and work with Amazon Alexa and The Google Assistant.

3-STEP DIMMING USING ORDINARY SWITCH

NO NEED TO INSTALL DIMMING BE ACHIEVED
BEACHIEVED WITH ORDINARY SWITCH

METHOD OF APPLICATION

- Off the switch
- Install the lamp
- Switch on,it is 100% brightness; After switch off and onagain,it is 50% brightness; After switch off and on again, it is 12.5% brightness.
- Quickly press the switch twice, lamp could return tonormal.

Multi-functions:

One lamp can be used as a normal light,
reading light
and nightlight, which makes your life more
comfortable and energy saving.
